Professional Experience

Oasys Cybernetics Private Ltd
Angular Developer

Nov 2021 –
present
Chennai, India

Working on a web application to efficiently suggest and manage the **UPEX** (Integrated Excise Supply Chain Management System - IESCMS for UP) with supply chain management (SCM), which oversees the flow of supplies through all stages of the production cycle.

Technologies: HTML, CSS, TypeScript, Angular 8.

Responsibilities:

- Developed the frontend screens of product requests, request acceptance, transport pass generation, managing order pickup and dispatch, retail sales and payment deduction and refunds during requests and transport pass generation.
- Collaborated with UI/UX designers to translate user interface changes based on the client feedback into effective frontend solutions.
- Utilized REST services, processed JSON responses, and extracted essential information for excise management functionalities.
- Integrated front end components with backend APIs and data sources, ensuring seamless functionality.
- Developed reusable components and services that improves code efficiency.
- Optimized front end performance through code splitting, lazy loading, and other advanced techniques.
- Worked within Agile methodologies, participating in sprint planning, stand-ups and retrospectives.

- Stayed updated with the latest Angular releases and best practices, continuously improving skills and techniques.
